

VivoISP Internet Circuit Monitoring

Regularly Audit Network Responsiveness

Why VivoISP?

VivoISP - Global WAN Performance Reporting

VivoISP - 24/7 Connectivity Testing

VivoISP - Built-in Circuit Scoring

VivoISP - Annual Circuit Audits

VivoISP - Automated ISP Ticketing

GAIN VISIBILITY INTO YOUR INTERNET CONNECTIVITY

AUTOMATED NOTIFICATIONS AND PROVIDER TICKETING WHEN ISSUES ARE DETECTED

ZeroOutages VivoISP service performs continuous 24/7 network monitoring of Internet connectivity in order to determine SLA status, available bandwidth, and responsiveness of critical applications. Ensure that service level agreements are being met and when issues are detected ZeroOutages will automatically open service provider tickets, thus preventing IT administrators and staff from having to deal with these issues.

NEXT GENERATION SLA MONITORING AND PERFORMANCE GUARANTEES

	Vivo ID	Node Address	Status	Type	RRT Last	RRT AVG
Irvine TEST	1001	98.164.230.115	■	Sonar	11.801ms	10ms
Gateway	1005	72.211.214.45	■	Sonar	9.311ms	9ms

ZEROOUTAGES STATS

Minimum 200% Increase
in Cloud-Service Performance

Scale Bandwidth by 600x
via Multiple WAN Link Bonding

Network Redundancy Equal
to 99.9999% Annual Uptime

WHAT'S INCLUDED:

- WAN Circuit Monitoring
- ISP Ticketing, Auditing, Tracking
- 24/7 Outage Detection
- Multiple Email Groups
- Global Web Portal
