

ZO-IP Hosted (Virtual IP Services) Solutions from a Trusted Name in SD-WAN

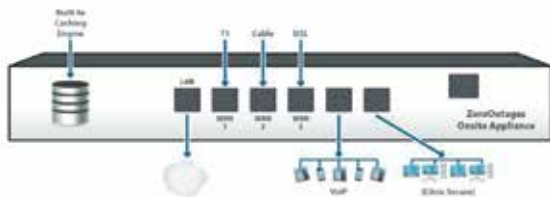

What's Included?

- Intelligent VoIP SD-WAN Router
- Virtual IP Address for Hosted VoIP
- Automated VoIP Failover
- VoIP Traffic Shaping & QoS
- Transparent Installation
- Managed Secure VoIP Firewall
- 4G LTE Backup Link (add-on)

EACH CUSTOMER GETS A VIRTUAL IP ADDRESS FOR FAST APPLICATION FAILOVER

ZO-IP was designed for SMB customers that require a quality cloud experience.

This service ensures uptime for hosted VoIP phones by using a single IP address no matter which Internet link is up or down. The service can also improve cloud connectivity by using traffic shaping and QoS at the edge of the customers network.

ZEROOUTAGES CAPABILITIES

- SD-WAN Hybrid Premise
- Internet via Local Links
 - Critical Services via the Cloud

SD-WAN Cloud Services

- Over Twenty Data Centers:
- San Jose
 - Dallas
 - Chicago
 - Kansas City
 - Atlanta
 - Washington DC

SD-WAN SERVICE OPTIONS:

ZO-IP 4G -

This service provides backup via ZeroOutages' 4G services which includes an LTE connection with up to 1G/mo of bandwidth, and can be upgraded if additional bandwidth is needed.

ZO-IP Dedicated -

Upgrade to a dedicated VIP for VoIP and network data failover across multiple WAN links. Sits in front of existing firewalls.
